War.

His Highness the Darbar Sahib Bahadur who takes a keen interest in all matters relating to the war placed his personal services and entire resources of the State at the disposal of the Supreme Government at the outbreak of the present world-wide war in 1914 and has since been contributing to the best of his power both in men and money for its successful prosecution.

In order to make the work of recruitment, a success in the State, four Government military pensioned officers resident of the State, and well conversant with local conditions, were specially deputed for the purpose with a sufficient staff and means of transport. To egg on their interest in the work these recruiters were allowed a handsome allowance each besides a reward of Rs. 3/- for each recruit they brought in. This arrangement worked well and a number of recruits was supplied for the Indian army.

It is very gratifying to note that over 500 persons of the State are serving in the Indian army, many of whom have got the proud privilege of fighting at the front.

Vigorous and untiring efforts are in progress to supply as many recruits from the State as may be possible both directly and also through the Government Regimental parties, the latter being afforded every facility and assistance by the State officials in their work of enrolment.

The need for recruits being great and the Imperial Government attaching special importance to the matter, His Highness was, with a view to stimulate and encourage increased enlistment among the subjects, of the State, pleased to grant the following concessions to those persons who join the Indian Army.

1 Persons already in the service of the State will continue to draw their pay at the present rate till the termination of the war in addition to such pay and allowances as they may get from the British Government.

2 Jagirdars enlisting themselves for the Indian Army will be exempted from Chakri (service) so long as the war continues.

3 The widows or the minor children of persons dying on active service will be granted suitable pensions from the State in addition to what they may receive from the Imperial Government.

Up to end of July 1917 the sum of Rs. 76750/- was contributed from the State to the various funds of the war as per detail given below:-

Indian War Loan.

To explain the object of the loan to the public in General and to ensure the raising of a handsome amount from the state, a mass meeting attended by Sardars, Jagirdars, representative of all sects and creeds and the public at large was held on the evening of the 10th May 1917 at Sundargarhat, Bundi, under the presidency of His Highness the Maharao Raja Sahib Bahadur who expressed himself in a few well-chosen words in Hindi, the English rendering of which is given below :—

"It is the duty of every one loyally to sacrifice person and property in the service of their master. When I myself your ruler am doing all I can to serve the King Emperor it is your doubly bounden duty to spare no sacrifice either of money or men on this occasion and to do this sacred duty you all have been brought together here."

After this Major Madan Mohanlaljee member, State Council, read the following speech on behalf of His Highness :—

"That the most appalling atrocities and barbarities, practised by Germans led to the present world-wide War is well known to the general public.

"It was only to protect the rights and integrity of the smaller nations and to preserve the civilization of the world that our Just Imperial Government joined with much reluctance in this titanic struggle.

"In consonance with the saying of the Shastras यतो धर्मस्ततो जयः i. e. where there is justice and duty there is inevitable victory, we are quite sure that our Benign Government will soon achieve final and decision Victory over the enemies. This is becoming unmistakably clear from the successes the British and the allies are now gaining from day to day in the various theatres of the war. On this occasion it is our prime duty to come forward with our person and purse and make every sacrifice that lies in our power to assure triumph for the good cause.

"It is very gratifying to me to see that a large number of my subjects have joined the Imperial Army and are giving proof of their devotion to duty and of the valour of their own country on the battle fields. I am sure that a good many more of my loyal subjects will come forward to enlist themselves in the British Army to perform their sacred duty

with equal zeal and energy.

"It is no secret that the Imperial Government is incurring very heavy expenditure in this war and that by opening a war Loan they have afforded an opportunity to the general public in India to prove their loyalty by subscribing liberally to it. As will be evident from the terms of the loan, the humblest can subscribe his mite to it to his manifest advantage.

"One and half lacs of rupees have been subscribed by the State and fifty thousand by the Zenana Sardars to this loan.

"I am fully confident that my loyal and devoted Sardars, nobles, officials, bankers and the people will prove their Steadfast loyalty by subscribing to this war loan to the best of their resources "

These speeches had the great effect of strongly impressing upon the audience the great necessity, advisability and wisdom of subscribing to the loan which combined both the devotion to duty and profit to themselves. Great enthusiasm prevailed and every one present was touched to the core and a sum of Rs. 50,000/- was subscribed on the spot. Local meetings were also held in the Nizamats and Jagir estates where subscriptions were collected for the loan.

By the end of July 1917 merely Rs. 3,15,000/- were contributed to the War Loan Fund from the State.

Political Relations.

The relations between the State and the Supreme Government have been as friendly as ever and marked with increasing cordiality and the Durbar acknowledge with great gratitude the assistance and advice received at the hands of the Imperial Government and its officers.

The Hon'ble Sir Elliot Colvin K. C. S. I., continued to hold charge of the high office of the Agent to the Governor General in Rajputana throughout the year.

S. S. Waterfield Esqr Political Agent Haraoti and Tonk continued to hold charge of the Deoli Agency throughout the year.

The State tenders its grateful thanks to the above mentioned officers for the lively interest they evinced in all that concerned the well being of the State and did all they could to help the Administration.

High officials.

The names of High officials as also the changes effected in the personal during the year under report are embodied in appendix I herewith attached.

CHAPTER II

Revenue.

For administrative purposes the State is divided into five Nizamats each presided over by an official called Nazim and one Tehsil headed by an official called Tehsildar and three Pors under Kiladars as detailed below :—

Administration Unit.	Locality of head quarters of Units.	Officer Presiding.
1 Nizamats	Hindoh	Nazim
2 "	Gandoli	"

3 Nizamat	Keshoraipatan	Nazim
4 "	Deyi	"
5 "	Baroondhan	"
6 Tehsil	Karwar	Tehsildar
7 Fort	Nainwa	Kiladar
8 "	Taragarh	"
9 "	Ajitgarh	"

The Nizamat staff consists of one Nazim, one Naib Nazim, one Fotedar, two Moharrirs and one Daftari besides Sawars, guards and menials, the last named varying in number according to the extent and importance of the administrative unit.

The assessment rates fixed in 1878 continue to hold good with slight modifications to suit the circumstances. These rates are very low and the cultivators find no difficulty in paying them and the readiness with which they always come forward to pay them testifies to this fact.

The land revenue is realized in two equal instalments i. e. for Kharif in December and January and for Rabi in April—May and all collections are generally made in cash.

A good deal of land is lying uncultivated in the State and vigorous efforts are being made to bring the culturable waste under plough.

Special concessions are granted to those who break up new land. Remuneration is also paid to those who help to get fallow land cultivated.

The year under notice was of good and evenly distributed rainfall and consequently both the crops yielded a fair outturn and the land revenue was collected on a normal scale.

The revenue collections of the year are compared with those of the past year in the following statement :—

Sumvat	Demand	Collections
1972	586237	549546
1973	639328	609435

Pandit Manik Laljee Joshi continued to look after the revenue department during the year under report.

In this year no boundary dispute case was settled.

CHAPTER III

Legislation.

The State has its own codifications for the guidance of its judiciary, based on Dharma Shastras, customs of the country and the general spirit of the code in force in British India.

Appendix II showing the laws in force in the State is herewith attached.

Military Force.

The total strength of the military forces maintained by the State stands at 750 as under :—

Infantry	600.
Artillery	50.
Cavalry	100.
Total				750.

The total expenditure incurred on the maintenance of the above forces during the year under notice was Rs. 127979/- against Rs. 106465/- of the preceding year.

The military force are employed in furnishing escorts, guards of honour in State processions and ceremonials and for other military purposes according to necessity.

The infantry are armed with smooth-bore muzzle loading muskets and bayonets, the cavalry with smooth-bore muzzle loading carbines, swords and lances and the artillery men with sworas.

Appendix III showing particulars in regard to strength and costs etc. of the military Forces maintained by the State during the Sumvat year 1973 is herewith attached.

Police.

The Police of the State is divided into two sections i. e. the City Police and the District Police, the former under the City Kotwal and the latter under the District Superintendent of Police.

The city Police keeps watch & ward over bad characters and maintains order in the city while the District Police, the staff of which consists of one Superintendent and 14 Thanaadars with the same number of Moharirs, 8 clerks, 10 menials and sepoy, is responsible for guarding communications, affording protection to travellers and keeping peace and order in the mufussil.

There are 557 policemen in all giving an average of one to every

3.98 square miles and 390 persons which shows their number is quite sufficient to meet the requirements.

Appendix IV showing strength, cost of discipline and education of the City and the District Police maintained by the State during the year under report is herewith attached.

Criminal Justice.

The criminal justice is administered in the State through the following courts :—

- 1 Council (Judicial branch)

Civil Justice.

The number and the constitutions of the civil court continued to be the same as last year. The names and working of the various civil courts in the State are given in appendices X, XI and XII herewith attached.

Registration.

The number of documents registered during the year was 4 of the value of Re. 1259/8/- against 6 of the value of Re. 2800/2/9 of the last year.

These figures show that the people of these parts have not yet come to realize fully the advantages of having their documents registered but by degrees when they find their registered documents carrying more weight in litigation in point of validity they will make full use of it. So far money transactions are seldom registered though it will be distinctly advantageous to the public if their registration were insisted upon within reasonable bounds.

Appendices XIV and XV showing the description and value etc. of the documents registered and the revenue realized under this head during the year under notice are herewith attached.

It has two separate wards, one for males and the other for females and is capable of holding 149 persons at the rate of 648 cft for a person.

A small hospital is attached to the Jail for treatment of prisoners where medicines are supplied from the main dispensary.

During the year 4 deaths occurred in the Jail and two convicts escaped from it.

The prisoners are employed in Jail works, gardens, press and cleaning camping grounds. The Jail premises and its inmates are kept scrupulously clean and great care is taken about their diet.

The management of the Jail is carried on under the supervision of the Foreign member of the State Council and there has been no complaint of ill-treatment, transgression of Jail rules or in-subordination.

The health of the prisoners was good throughout the year and their conduct was also equally so.

The maximum number of prisoners in the Jail on any one day was 116 on the 27th April 1917 and the minimum number on any one day was 74 on the 30th June 1917.

Appendix XIII showing information with regard to prisoners in the Jail and Kotwali lock-up is herewith attached.

CHAPTER IV

Production and Distribution.

Rainfall and Crops.

The rainfall during the year was more than usual and filled all the tanks and wells in the State. The monsoon broke at the usual time and was opportune and evenly distributed which enabled both the crops to be sown on a normal scale and consequently the Kharif and Rabi crops brought in a good yield.

In April 1917, however when the Rabi crop was lying in the threshing floor it commenced raining and foul weather continued from then all through Summer and damaged Rabi outturn appreciably which otherwise was good on the whole.

The rainfall of this year as recorded at the capital amounted to 47 inches and 62 cents as against 19 inches and 75 cents of the last year and 27 inches and 10 cents of quinquennial average.
